### 3. Brief Auto-biography of the Staff

Musa Adero Otieno is a dedicated and skilled Senior Electrician I within the Estates Department. With a comprehensive background in electrical work, Musa brings a wealth of experience and expertise to his workplace. Having successfully completed the Electrical Trade Test I at the Kenya Industrial Training Institute, Musa continued to enhance his skills by obtaining the Trade Test II certification from the Kisumu Industrial Training Centre and the Trade Test III from the Kenya Industrial Training Institute. His commitment to professional development is evident in his acquisition of the National Construction

Authority License as a Construction Site Supervisor, showcasing his capability to oversee and manage construction projects.

Musa is known for his meticulous approach to electrical work and his ability to troubleshoot and solve complex issues efficiently. His proficiency in adhering to industry standards and regulations, coupled with his extensive experience, makes him an invaluable asset to the Estates Department. As a Senior Electrician I, Musa is dedicated to ensuring the safety and reliability of electrical systems within the department. He is passionate about staying abreast of industry advancements and implementing best practices to optimize the performance of electrical infrastructure. Musa's commitment to excellence, coupled with his qualifications and experience, makes him an integral member of the Estates team. His proactive and results-oriented approach aligns seamlessly with the goals of the department, contributing to the overall success of our organization
